TREADMILL

EVOTBF

ACK BIOFEEDBACK BIOP M PATENTED SYSTEM P TEMPATENTED SYSTEM

Bodytone's patented technology allows the athlete to correct possible deviations in their stride thanks to the incorporation of a series of indicators in our treadmills. The treadmill detects the impact of your stride in real time, indicating the quality of your stride on the screen and allowing you to correct possible deviations. This technology will allow you to help your clients improve their running technique and prevent injuries. In addition, the Biofeedback system is compatible with the MyBodytone application.

Patent number US2020353309A1.
